Subject: [dig-comments] NIST Password Recommendations
Date: Friday, September 27, 2024 11:49:49 AM

Greetings.

I strongly support the recently announced NIST password proposals, documented in SP 800-63-4. However, I urge your proposal to include these items:

- 1.) Make the required minimum password length be twelve characters (instead of eight)
- 2.) Disallow the practice of changing the user defined value to all upper case, or all lower case
- 3.) To the extent allowed by law, make your proposals mandatory

Thank you,
S. Rimicci
