1	63A	4.3.3.2	11	560-578	Can NIST opine on the evidence strength when an attribute and biometric match is made with an authoritative source's system of record, using the method in Sec. 4.3.4.3, pg. 13, line 625, but the underlying evidence document is not present at the time of verification? E.g. self-asserted biographic attributes and a captured portrait image are positively matched to a State's DL/ID record through a matching service?
