# OSCAL Lunch with the Developers

## **Purpose:**

- Facilitate an open, ongoing dialog with the OSCAL developer and user communities to promote increased use of the OSCAL models

## **Goals:**

- Provide up-to-date status of the OSCAL project development activities
- Answer questions about implementing and using the OSCAL models, and around development of OSCAL model-based content
- Review development priorities and adjust priorities based on community input
- Help the OSCAL community identify development needs

# Ground Rules

- ▶ Keep the discussion respectful
  - ▶ Using welcoming and inclusive language
  - ▶ Being respectful of differing viewpoints and experiences
  - ▶ Gracefully accepting constructive criticism
  - ▶ Focusing on what is best for the community
  - ▶ Wait for one speaker to finish before speaking - one speaker at a time
- ▶ Speak from your own experience instead of generalizing ("I" instead of "they," "we," and "you").
- ▶ Do not be afraid to respectfully challenge one another by asking questions -- focus on ideas.
- ▶ The goal is not to always to agree -- it is to gain a deeper understanding.
