C	Cartian	Page #	Line #	Comment (Include rationale for comment)	Suggested Change
Comment #	Section	#	Line #	(include rationale for comment)	
					if both are intentional may read better as
					After the applicant has been authenticated, a derived PIV credential MAY be issued. If issued, the derived PIV credential
	2.2	7	433-435	Somewhat confusing to have a MAY followed by a SHALL for what might look like the same thing	SHALL be associated with the cardholder's PIV identity account.
				The comment "However, in many cases, aligning the expiration dates will simplify lifecycle	
					If the statement is left, recommend adding something about "aligning expiration dates may impact the ability to use DPIV
	3.1.1	11	584-588	when the subscrber replaces their PIV Card with a new one (reissuance)"	crednetials if there is a delay in obtaining an updated PIV "
